INSTRUCTIONS

1. This practice sheet contains **10 MCQ questions** from all 5 CLAT sections.
2. For each question, **darken the bubble** next to your chosen option using a **blue/black ball pen**.
3. **Justify every answer** in the 2 lines provided below each question.
4. Marking: **+1 Correct | -0.25 Incorrect | 0 Unattempted**
5. Justifications earn **bonus marks** — clear reasoning shows understanding.
6. Submit this sheet to your faculty or upload a scan to the platform.

ENGLISH LANGUAGE

1. Read the following passage and answer the question: "Coastal communities in the Sundarbans, a region straddling India and Bangladesh, face an existential threat. Rising sea levels, intensified cyclones, and increased salinity intrusion are no longer future projections; they are the lived reality. The traditional coping mechanisms of these communities, honed over generations, are proving insufficient against the accelerating pace of environmental degradation." The phrase 'existential threat' as used in the passage most nearly means:
- A) A challenge that requires immediate attention B) A threat to the very survival or existence of so...
 C) A minor inconvenience for the local population D) A problem that can be easily solved with financ...

Justify your answer:

2. Read the passage below and answer: "Adaptation in the Sundarbans is not merely a technical exercise; it is fundamentally a social and political process. Marginalized communities often lack the resources and political voice to effectively adapt. Mangrove restoration, livelihood diversification through eco-tourism and sustainable handicrafts, and equitable access to decision-making are all pieces of the puzzle. Translating scientific knowledge into locally tailored strategies, while addressing underlying inequalities, is the real challenge." The central idea of the passage is best expressed as:
- A) Reforestation of mangroves is the only effectiv... B) Global mitigation efforts must replace local ada...
 C) Effective climate adaptation in the Sundarbans ... D) Eco-tourism alone can solve the economic pro...

Justify your answer:

LEGAL REASONING

3. Principle: Article 21 of the Indian Constitution guarantees the right to life and personal liberty. Police have authority to investigate crimes, but this power is not absolute. Prolonged and unnecessary detention during investigation, even before charges are filed, can violate Article 21. Any infringement of personal liberty must be justified by a valid and reasonable legal basis. Facts: Ravi was arrested on suspicion of theft. He was kept in police custody for 10 days without being formally charged. During this period, he was interrogated daily for 8 hours. Decide:
- A) Ravi's detention is legal because the police alw... B) Ravi's prolonged detention without filing of char...
 C) Ravi's interrogation is automatically legal as lo... D) Ravi's detention becomes illegal only if he conf...

Justify your answer:

LEGAL REASONING

4. Principle: Article 21 of the Constitution protects personal liberty. The Supreme Court has held that police power to investigate is not absolute, that coercive interrogation methods amounting to physical or psychological torture are prohibited, that evidence obtained through such means is inadmissible, and that an accused must be informed of the right to remain silent and the right to legal representation. Which of the following statements is NOT supported by the principle above?
- A) Judicial scrutiny of police investigation aims to ...
 B) Evidence obtained through physical torture is i...
 C) The police have unlimited authority to investiga...
 D) The right to a fair investigation is implicit in Arti...

Justify your answer:

LOGICAL REASONING

5. Read the argument below and answer the question: "India's renewable energy generation has grown rapidly, but the grid's capacity to transmit this power has not kept pace. As a result, solar and wind farms are frequently forced to curtail output. Curtailment discourages private investment in renewables, since investors fear projects will not run at full capacity. Therefore, the government should prioritise investment in grid infrastructure over further expansion of renewable generation capacity." Which of the following, if true, would most strengthen the author's conclusion?
- A) Solar and wind generation costs have fallen sh...
 B) Many countries face similar grid-integration cha...
 C) An independent study finds that upgrading grid...
 D) Renewable energy investment has created job...

Justify your answer:

6. Refer to the same argument: "India's renewable energy generation has grown rapidly, but the grid's capacity to transmit this power has not kept pace. As a result, solar and wind farms are frequently forced to curtail output. Curtailment discourages private investment in renewables. Therefore, the government should prioritise investment in grid infrastructure over further expansion of renewable generation capacity." Which of the following, if true, would most weaken the author's conclusion?
- A) The government has already allocated a signifi...
 B) Recent advances in battery storage technology...
 C) Demand for electricity in India is projected to ri...
 D) Private renewable investment is mainly driven ...

Justify your answer:

GK & CURRENT AFFAIRS

7. In late February 2024, the Union Cabinet approved the establishment of three new semiconductor units in India with a combined investment of approximately ₹1.26 lakh crore. The semiconductor fab in Dholera, Gujarat, is being set up by Tata Electronics in partnership with which Taiwan-based foundry?
- A) TSMC (Taiwan Semiconductor Manufacturing ... B) Powerchip Semiconductor Manufacturing Corp ...
 C) United Microelectronics Corporation (UMC) D) MediaTek

Justify your answer:

8. The 'Make in India' initiative, frequently referenced in connection with India's semiconductor and manufacturing push, was officially launched in which year?
- A) 2010 B) 2014
 C) 2018 D) 2022

Justify your answer:

QUANTITATIVE TECHNIQUES

9. Read the caselet and answer the question: "TechForward Solutions reported total revenue of ₹250 crore for the fiscal year. Software Development contributed ₹100 crore, IT Consulting contributed ₹75 crore, and Cloud Services accounted for the remainder." What percentage of TechForward's total revenue was generated by Cloud Services?
- A) 20% B) 30%
 C) 40% D) 50%

Justify your answer:

10. Continuing with the same caselet: "TechForward's current Cloud Services revenue is ₹75 crore. The company aims to increase Cloud Services revenue by 40% in the next fiscal year." If the company achieves this target, what will be the Cloud Services revenue next year?
- A) ₹95 crore B) ₹100 crore
 C) ₹105 crore D) ₹110 crore

Justify your answer:

ROUGH WORK

Use this space for calculations and rough work. This page will not be evaluated.

A large grid of dots for rough work, consisting of 20 columns and 30 rows of small, evenly spaced dots.
